Embryo Transfer Regulations for Gypsy Cobs/Drum Horses

- [a] Before a foal born as a result of Embryo Transfer may be registered with the AGHS, all the AGHS current rules for Registration will apply and in addition;
- [i] The stallion and mare used must be registered with the AGHS, the APSB or other recognized society and DNA typed before the commencement of any flushing. Cost to borne by the owner/lessee. If the stallion to be used is a resident outside Australia the stallion's DNA Profile must be provided to the AGHS.
 - [ii] Before the commencement of any program, applications must be made to the AGHS Registrar for the official Embryo Transfer Record. This application must be made in writing, stating the animal's name, sire and dam, colour and date of birth [Forms available on application]
 - [iii] The Embryo Transfer Form must be duly completed by the Vet/Technician at the time of Embryo transfer and it is the responsibility of the mare owner to ensure a copy of the record is forwarded to the AGHS Secretary within 90 days of the Embryo Transfer.
 - [iv] Notation of any pregnancy result must be included on each Embryo Transfer Record.
 - [v] Only one successful Embryo to be registered from any one mare per year and one natural foal. In the event the mare is unable to carry a foal to term it will be permitted to register two Embryo Transfer foals from said mare. Verification of the mare's condition by a qualified veterinarian must accompany the Embryo Transfer Form in this instance.
 - [vi] The stallion and mare must be at least 36 months of age at the time of the Embryo Transfer.
- [b] Application for registration of a resultant foal must be accompanied by mare owner's copy of the Embryo Transfer Record signed and completed by the Veterinary Officer or the Certified A.I Technician.
- [c] A DNA Analysis Form & Sample must accompany the AGHS Application for Gypsy Cob Registration / AGHS Application for Appendix and Drum Horse Registration form and forward with the appropriate fees and all paperwork [See Form Checklist] to the Secretary. Application to register will only be accepted from current financial members of the AGHS.
- [d] The only prefix which may be applied to a foal that is born as a result of Embryo Transfer shall be deemed to be that of the owner of the embryo / foetus at birth.
- [e] Should either of the parties involved wish to lodge an objection concerning the parentage of a resultant foal, they should do so in writing to the Registrar of the AGHS. At the same time they shall deposit the sum of \$220.00 [GST incl]. If on investigation, the objection is not sustained, the cost of the DNA typing will be deducted.

Australasian Gypsy Horse Society Inc

Embryo Transfer Record - Mare Identification Certificate

Description of Donor Mare (DIAGRAM 1)

Name: _____

Description of Recipient Mare (DIAGRAM 2)

Name: : _____

The diagrams must be sufficiently detailed to ensure the positive identification of the animal in the future. White markings may be left in white, base coat in black. If there are no markings, this fact must be stated. All head and neck whorls should be marked (X). Other whorls should be similarly recorded in grey and in animals lacking sufficient other distinguishing marks. Acquired marks and other distinguishing marks e.g. prophet's thumb mark, walleye etc should always be noted. Brands, if microchip implanted please mark location with an arrow.
